Analyst who turns messy data into hypothesis-driven recommendations for risk and policy decisions, with experience in AI (AWS), consulting (Bain), and financial markets (Maybank).

EDUCATION

Columbia University, New York, NY Expected Dec 2027
MS in Applied Analytics

Northwestern University, Evanston, IL Graduated: June 2026
BA in Cognitive Science, Minors in Data Science and Business Institutions; HCI Certificate | GPA: 3.92, Dean's List
Coursework: Information Management (SQL), Data Science with Python (3-course sequence), Machine Learning, Statistical Methods, Evaluating Evidence, Data Visualization (R), Corporate Finance, Accounting, Intro to Micro and Macroeconomics
Notable Project: What Drives National Happiness? Regression and Policy Analysis. Modeled 781 country-year observations (Python) with regression and interaction terms (R^2 0.781) to test which factors significantly predict happiness (GDP per capita p=0.012, freedom p=0.003); handled multicollinearity with Ridge regularization and cross-validation, then turned the findings into policy recommendations.

PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) **Jakarta, Indonesia**
Solutions Architect - Enterprise Intern (AI/ML) *June 2025 – Aug 2025*
- Identified a digitization opportunity in Indonesia's informal laundry sector & developed CekLondri, an AI-powered MVP using AWS Bedrock, Lambda, DynamoDB, and S3, presenting the business case and ROI to **20+** AWS Solutions Architects
- Applied Amazon's Working Backwards methodology (PR/FAQ → design → prototype → demo), owning the project and iterating the technical build across **12** weeks based on stakeholder feedback
- Supported an AWS Summit Jakarta 2025 workshop enabling **55** participants to fine-tune LLMs for real-world applications; earned the AWS Certified AI Practitioner credential

Bain & Company **Jakarta, Indonesia**
Case Team Assistant *June 2024 – Aug 2024*
- Modeled carbon-credit economics and market trajectories under multiple pricing scenarios, quantifying the revenue trade-off between continued logging and lower-deforestation alternatives for the client
- Benchmarked the client's organizational structure against industry models, found role duplication, and proposed a realignment that client leadership adopted

Maybank Indonesia **Jakarta, Indonesia**
Global Markets Analyst Intern *July 2023 – Aug 2023*
- Analyzed 2 years of FX transaction data in Excel across 7 client segments and 10 regions, surfacing a projected **3.6%** drop in active clients (SME and SME+ down about 20%, corporate down 24%) that existing reporting did not show
- With a team of three interns, researched why clients stopped trading through news and public sources and employee interviews, and stated assumptions openly. Presented prioritized retention recommendations (foreign-currency savings, mobile app UX) to the Head of Global Markets and VP of Treasury
- Participated in a live client FX rate negotiation with a packaging-industry company, gaining firsthand exposure to how rate movements translate into real client decisions

Indostation (PT Indomobil Prima Energi) **Jakarta, Indonesia**
Business Development Intern *Jan 2022 – Jun 2022*
- Diagnosed operational bottlenecks across retail microsites and implemented process improvements that increased overall efficiency by **19%**
- Analyzed sales and traffic-route data ahead of Lebaran, Indonesia's highest-traffic travel period, to decide where to run a targeted marketing program
- Took ownership of an under-scoped problem with no centralized branch data, designing and executing the Site Survey from concept to rollout, visiting rural microsites in person to assess branch accessibility, cleanliness, and customer experience
- Assessed partnership feasibility with OVO and DANA digital payment platforms, producing a phased recommendation for digital-payment integration and customer engagement

LEADERSHIP EXPERIENCE

Student Consulting for Non-Profit Organizations (SCNO) **Evanston, IL**
Team Leader | Student Consultant *Mar 2023 – Mar 2026*
- Led consulting engagements for **6** nonprofits, including Bravo Waukegan, Kids Rank, Poised for Success, and Literacy Chicago, delivering growth roadmaps, governance frameworks, and funding strategies to support sustainable expansion
- Scoped workstreams and directed cross-functional teams; created grant-readiness tools, donor-engagement strategies, and sponsorship pipelines to diversify revenue

GenDigital Academy **Jakarta & Regional**
Senior Advisor | President *Apr 2021 – Present*
- Orchestrated a MURI-recognized virtual event, educating **4,521 students** across **180** schools in Indonesia; led ASEAN+ Youth Summit 2023 partnerships expanding digital literacy to Cambodia and Kuala Lumpur
- Partnered with Tokopedia Academy to provide nationwide student access to Python and foundational data science resources

SKILLS & LANGUAGES

Technical Skills: SQL, Python (Pandas, NumPy, scikit-learn, XGBoost; regression and hypothesis testing), R (tidyverse, dplyr, ggplot2), Tableau, Excel, Git, Gephi, AWS (Bedrock, Lambda, S3, SageMaker), Figma
Languages: English (Fluent), Indonesian (Native)
Interests: 556 restaurants reviewed across 70+ cities and 119 cuisines, 30+ NYC coffee shops, street photography, word search
